

VAYA Z8

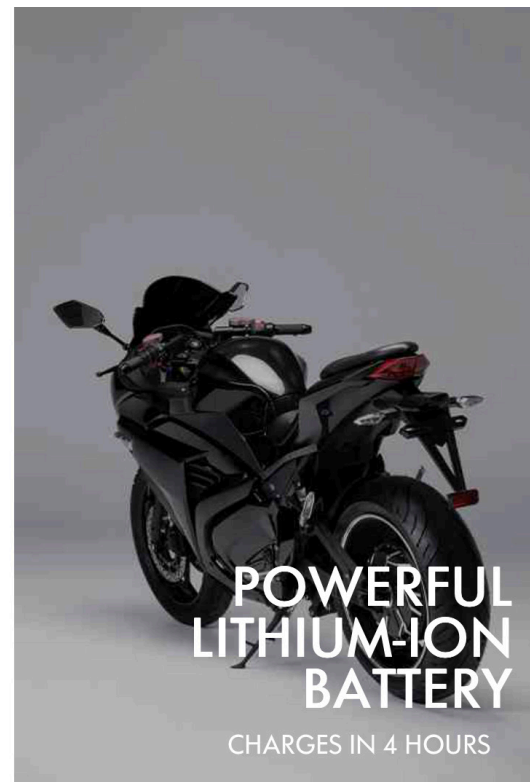

INFORMATION & SPECS

INFORMATION

Z8

The Z8 is a true electric sports bike, optimised for speed, acceleration, braking, and cornering. Its sleek design and lockable storage makes this the perfect commuter bike.

SPECS

The VAYA Z8 is a stunning example of electric motorbike technology. Equipped with a powerful 8kW motor, the VAYA Z8 electric motorbike provides a maximum speed of 120 km/h and a range of up to 200 km subject to riding conditions.

Disk brakes, lithium battery, and 4-hour fast charging are a few of the great benefits found with the VAYA Z8. The Z8 is fitted with the high capacity 72V 120Ah Lithium-Ion Battery.

Performance

The Star 8 8kW electric motor provides excellent acceleration and a riding experience that must be felt to be believed.

Electric Brakes

Disk brakes front and rear. The Z8's unified braking system is designed to EEC standard. It provides safer braking so that when the brake lever is activated both wheel brakes are engaged and brake pressure is applied proportionally across both wheels.

Power System

High capacity
72V 120Ah Lithium-Ion Battery
Standard charger 110V-220V

Electric Motor

Type – 8kW Brushless DC Hub
Acceleration (0-100kph) – 6.0 secs
Max torque – 126Nm
Controller – Sine wave current 600A
power controller

Maximum Speed

120 km/hour

** Actual speed achieved will vary according to factors such as terrain, weight of rider, riding conditions and riding style.*

Range

City 35kph –200 km

Highway 80kph –130 km

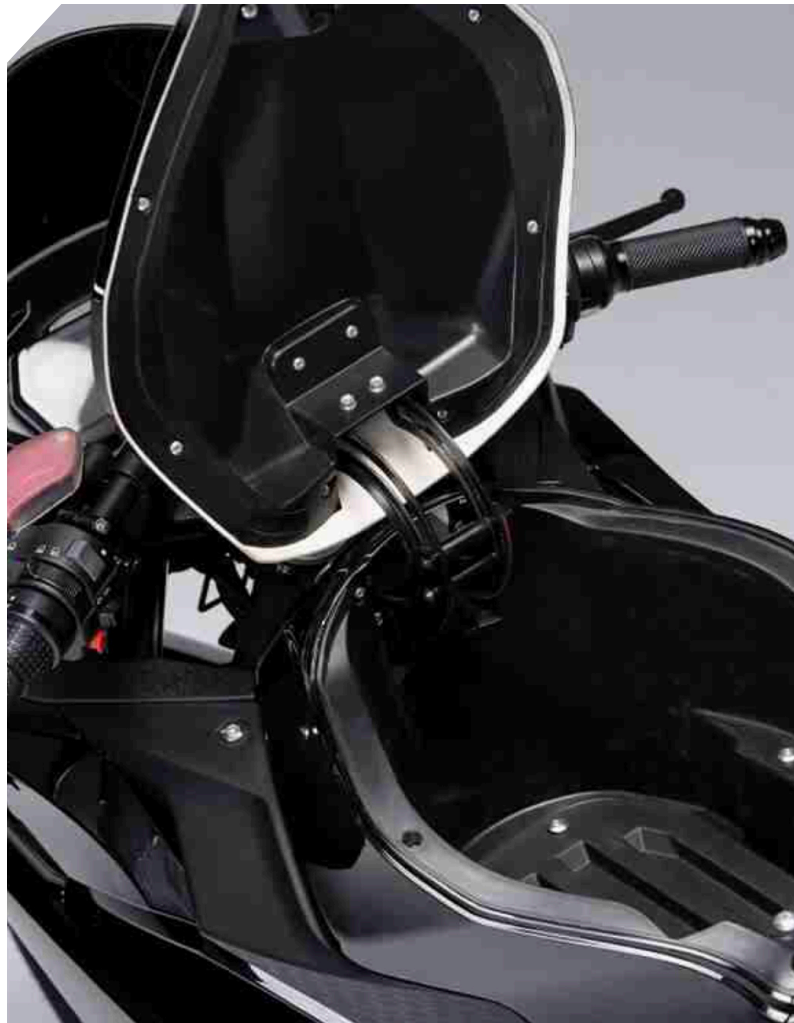

Freeway 100kph –110 km

**Actual range achieved will vary according to factors such as terrain, weight of rider, riding conditions and riding style.*

Suspension

Front Suspension – 42mm inverted telescopic forks

Rear – Rack type suspension

Wheels

Front & Rear Wheels – 17 inch

Front Tyre – 110/70-17

Rear Tyre – 180/55-17

Dimensions

Length – 2020 mm

Width – 750 mm

Wheelbase – 1430 mm

Seat Height – 780mm

Ground Clearance – 160mm

Rake – 22.5 degrees

Warranty

2 Years
